HISTORIC AMERICAN BUILDINGS SURVEY

HOMFELDT HOUSE

HABS No. MO-1533

Location: Tipton, Moniteau County, Missouri

HISTORICAL AND ARCHITECTURAL INFORMATION

The following information was recorded by Alexander Piaget and Charles van Ravenswaay at the time the photograph was taken:

Built ca. 1860s. The builder of this curiously cramped house with its low overhanging roof was an Englishman. Two and one-half story brick with one story ell. Five column portico. The row of columns is placed so near the house that there is hardly enough space left to call it a veranda.

PROJECT INFORMATION

The Piaget-van Ravenswaay Survey consists of a number of photographs, primarily of sites and structures in Missouri, which were taken before 1938 by Alexander Piaget and after that by Paul Piaget, both in conjunction with Charles van Ravenswaay. Photographs of buildings were incorporated into the HABS collection in 1985 by Laura Rupp and in 1986 by Deborah Fulton, HABS historians. A master list is available in the [REDACTED] records for MO-1800.
